### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Yaakov Schatz on March 31, 2005.

2. The application has been amended as follows: **Claim 72** has been cancelled.

### ***Allowable Subject Matter***

3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to sufficiently describe or suggest a method of transmitting data over lines of a power line network wherein opposite polarity currents are induced on two separate lines of the network and the propagated currents are sensed at another location along the lines. These along with further limitations set forth by the claims, render the application allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Conclusion**

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Though not used in an art rejection, Cern, Abraham, Fernandez, Paret, Bilenko et al, and Gajjar, each disclosed power line communication apparatuses and methods that were useful during the examination of this application.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric M. Blount whose telephone number is (571) 272-2973. The examiner can normally be reached on 8:00 am - 4:00 pm.
